from which the above cut was taken. By it we can take the exact shape, and uneringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pan they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times it our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Case Syaress (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$4.95; surpassing any \$5 Hat sold in this city. Our linb are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We in its all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
